PROFESSIONAL EXPERIENCE

Frontend Developer Intern

HNGx (HNG Internship, Cohort 12. Finalist) — Remote

Jan 2025 – April 2025

Roles and Responsibilities:

- Developed responsive, high-performance user interfaces using TypeScript, Next.js, and Tailwind CSS, ensuring seamless user experiences across devices.
- Integrated RESTful APIs to enable dynamic, data-driven application features, focusing on efficient data handling and state management.
- Collaborated with designers, developers, and PMs in a cross-functional Scrum team, participating in daily stand-ups, sprint planning, code reviews, and regular team check-ins for continuous alignment and delivery.
- Implemented best practices in version control using Git and GitHub, maintaining clean, reusable code and ensuring project consistency.
- Actively contributed to UI/UX improvements, implementing user feedback to enhance functionality and accessibility.

Stack: TypeScript, NextJs, Tailwind CSS

NPLC – Frontend Engineer

Nov 2024

Roles and Responsibilities:

- Translated Figma design specifications into high-quality, responsive frontend code, ensuring pixel-perfect implementations and seamless user experiences.
- Collaborated closely with designers, backend developers, and product managers to bring project ideas to life, maintaining strong alignment throughout the development lifecycle.
- Integrated APIs, managed data flow with Redux, and implemented robust error handling and fallback mechanisms for better user experience and application stability.
- Worked with backend teams to troubleshoot and resolve API-related

EDUCATION

The App Brewery

ALX Software Engineering

Joseph Sarwuan Tarka

University-Makurdi Benue–
B.sc Civil Engineering

Honors: Second Class Hons.
(upper division)

TECH STACK

HTML, CSS, Tailwind CSS,
JavaScript, Typescript, React.js,
NextJs, Node.js, Express.js,
PostgreSQL, MongoDB, git,
github, Linux

SKILLS

SQL & NoSQL Databases |
Collaborative Development |
Critical Thinking & Problem
Solving | Self-Learning &
Independent Project
Development

issues, ensuring smooth data communication and consistency.

Stack: TailwindCSS, ReactJs, Redux

Freelance Web Developer

December 2022 - Present

-Building and deploying projects to enhance my web development skills, focusing on creating user-friendly interfaces and high performance applications .

PROJECTS

_printf implementation, - *Team member*

- Partnered with an alx-learner to developing a custom “_printf” function, designed to replicate the behavior of the standard “printf()” function in C.
[printf](#)

Simple_Shell, - *Team member*

- Partnered with a fellow alx-learner to build a basic shell environment that functions like the standard system shells using the C language.
[simple shell](#)

I have more projects that can be found on my [github](#) or my [portfolio](#).
